The operations plan for this unspecified period for the Reichsbahn Division Berlin calls for: a five-percent increase in productivity per worker, a cost decrease of 3.8 percent, and an increase of female employees by 11.8 percent of the total laborforce.

Specific assignments are given for the operations and traffic department (increase of daily loadings by 8.3 percent as compared with 1950, of daily unloadings by 15.2 percent; decrease of daily operational rolling stock by 12.4 percent and of local turnaround time by 10 percent), locomotive service department (locomotive performance in million locomotive ton-kilometers to be increased by 18.8 percent as compared with 1950, coal consumption to be decreased by 3.5 percent), and track maintenance department (renewal of rails, switches, ties, ballast; snow removal, etc.).

Figures are given depicting the development of special funds at the above-mentioned departments in 1951. The figures cover allotments and expenses incurred for such items as premiums for inventions and streamlining methods, cultural activities, efficiency premiums, rehabilitation and vacation aid, social activities.

Foreign language document or a microfilm of it [redacted] may be obtained from CIA Library. [redacted]
